

One Clinical Community

Front Line Update

Mark Shenton & Crawford Jamieson

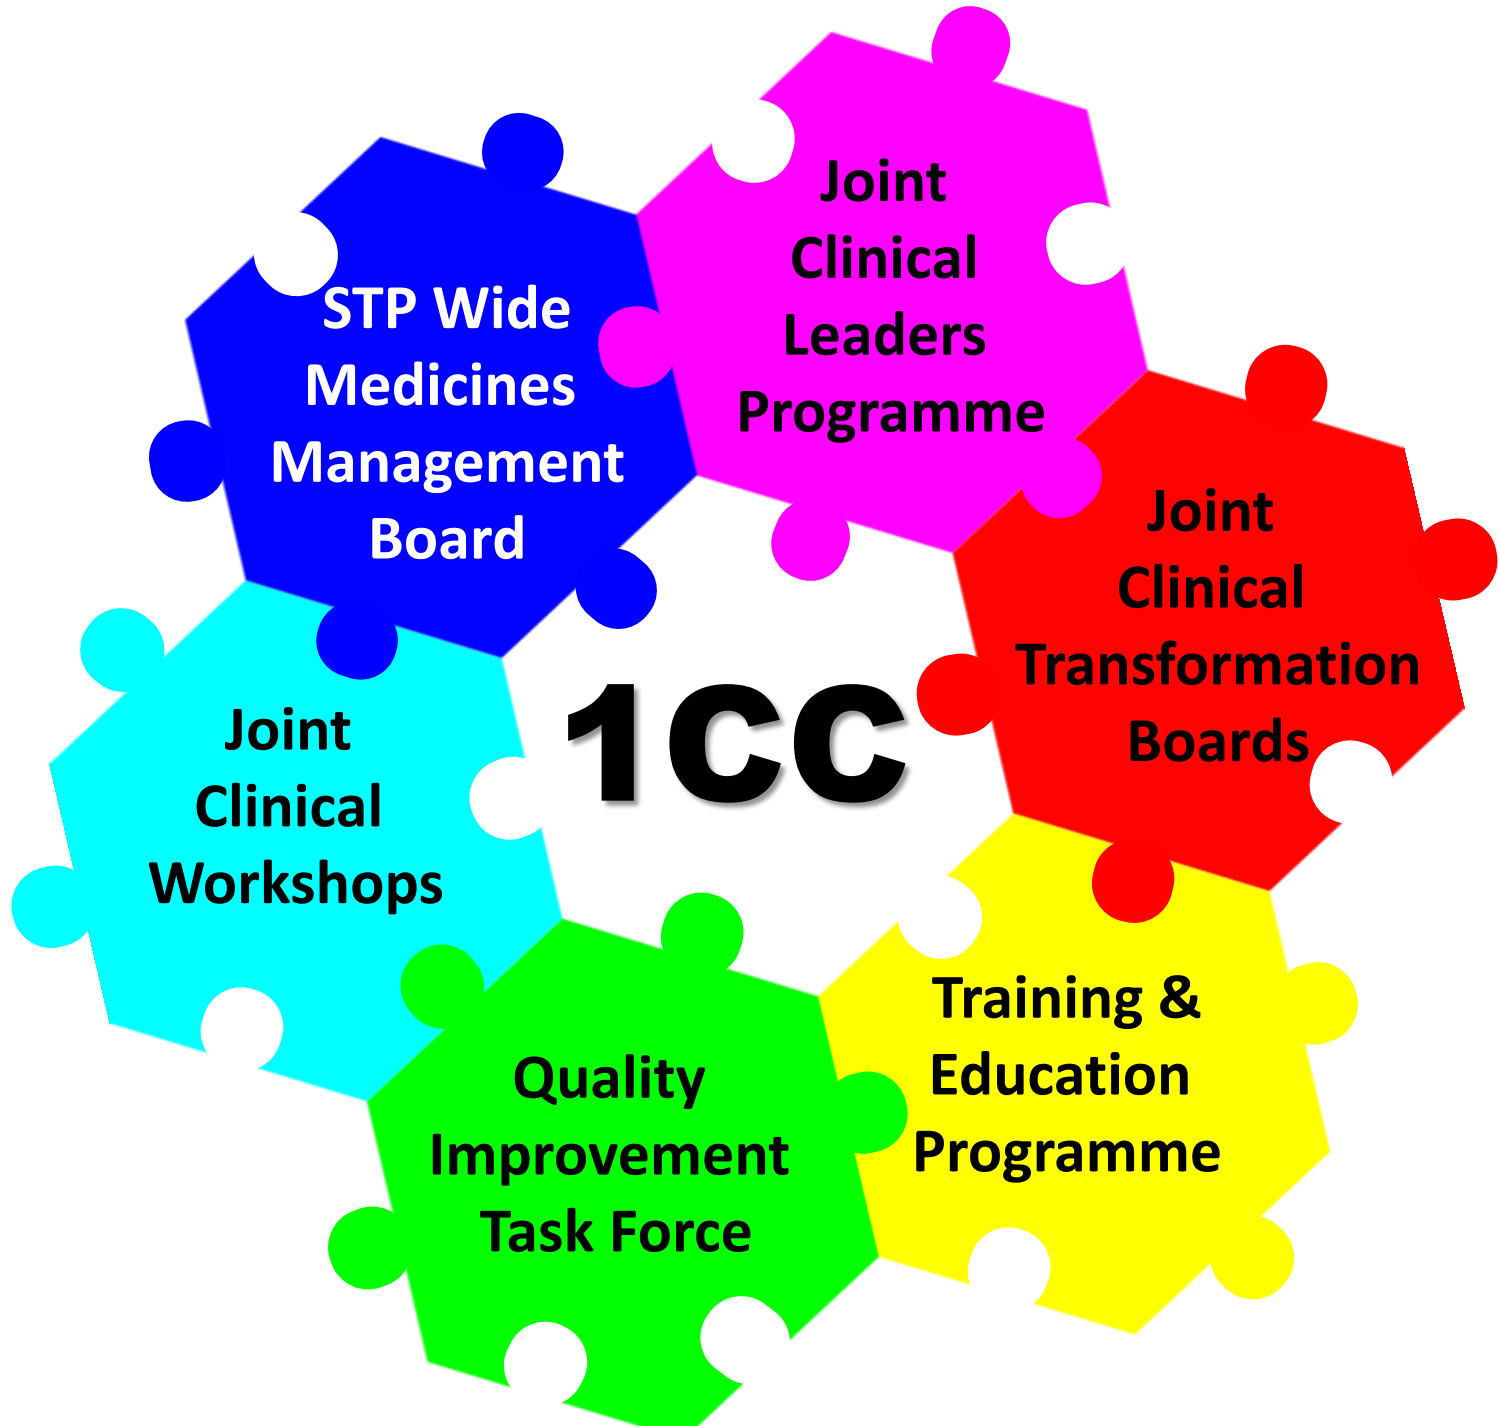

16 November 2017

Key Themes Raised at June Event

- Need for education:
 - Inclusion of wider multi-disciplinary teams in 1CC events
 - Development of new generation of clinical leaders
 - Top Tips on diagnosis and treatment
- Need for improvement in communication:
 - Understanding of transformation projects underway
 - Opportunities for greater front line consultation
 - Record sharing and shared care agreements
 - Access to timely advice and guidance
 - Access to diagnostics & electronic viewing of results across the system
 - Reasons for changes in medication / treatment plans
- Need for clarification about pathways:
 - System wide pathway mapping (Primary to Community to IHT including VCS)
