

Domestic Violence Training for Practice Nurses

Tabitha Griffin

Named Nurse Safeguarding in Primary
Care

May 2017

Objectives

- To refresh knowledge about domestic violence and domestic abuse
- To have a broad understanding of the terms domestic violence and domestic abuse
- To know where to access further training if required
- To update your surgery about the training and disseminate to your fellow PNs that you work with

Aims

- To know how to ask the question about domestic abuse/violence
- To work with your PM and SG lead about women experiencing domestic violence and or domestic abuse &/or domestic violence
- To be able to change the appropriate templates for women to reflect that the question has been asked
- To provide evidence of referrals (where appropriate) to support agencies for those experiencing domestic abuse/domestic abuse

TYPES OF ABUSE

PHYSICAL

EMOTIONAL

SEXUAL

PSYCHOLOGICAL

FINANCIAL

DEFINITION OF DOMESTIC ABUSE

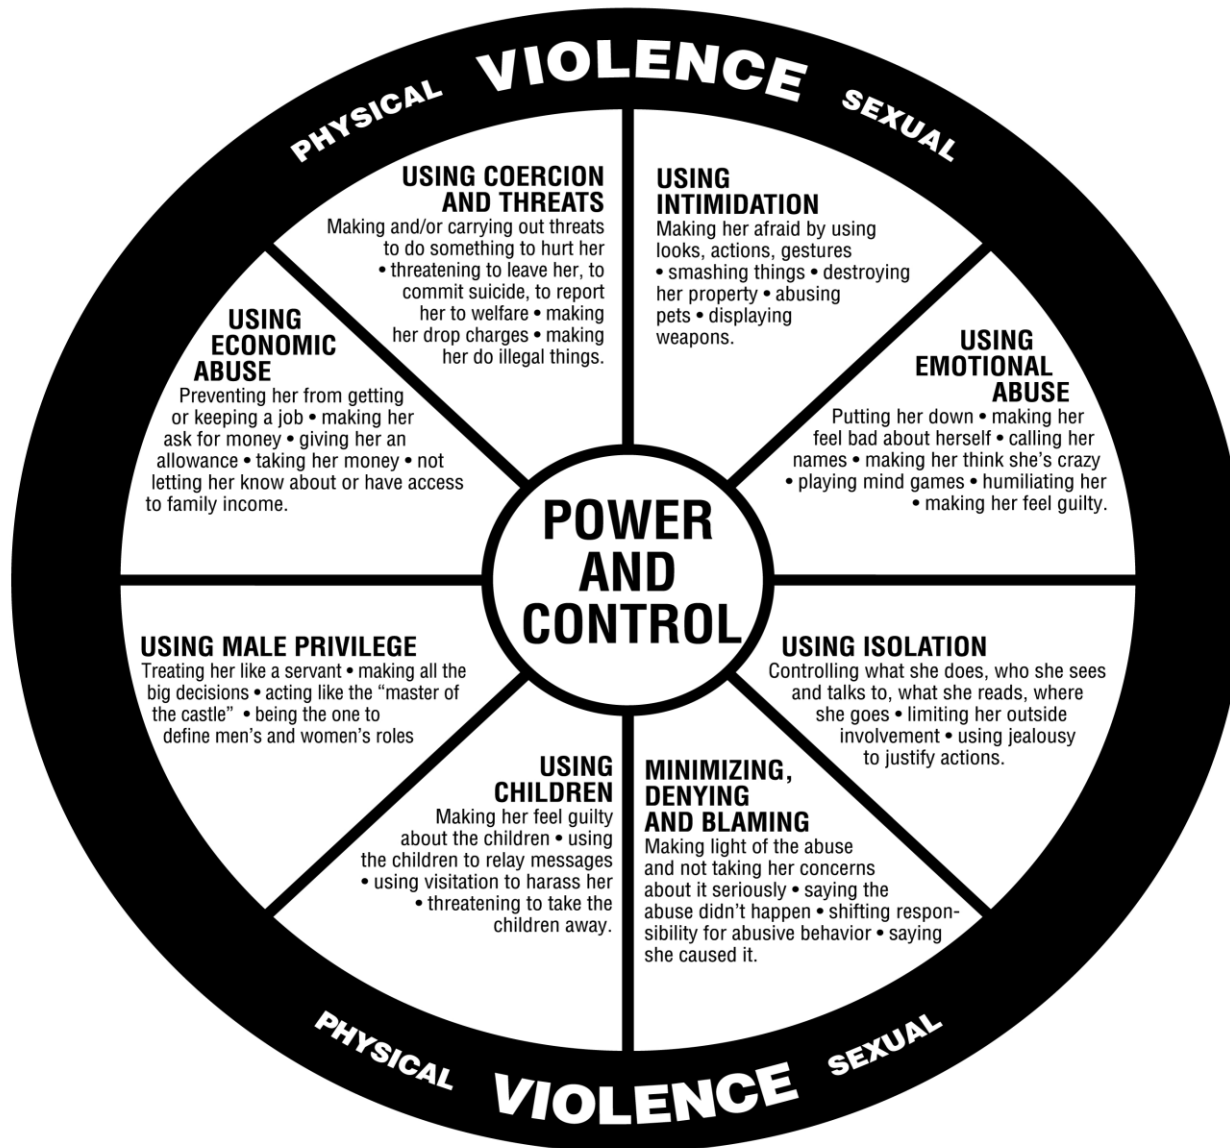

Any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members¹ regardless of gender or sexuality. This can encompass, but is not limited to, the following types of abuse:

'Controlling behaviour is: a range of acts designed to make a person subordinate and/or dependent by isolating them from sources of support, exploiting their resources and capacities for personal gain, depriving them of the means needed for independence, resistance and escape and regulating their everyday behaviour.'

'Coercive behaviour is: an act or a pattern of acts of assault, threats, humiliation and intimidation or other abuse that is used to harm, punish, or frighten their victim.'
