

## **CUH PATHOLOGY - NEWSFLASH**

22<sup>nd</sup> October 2020

### **Restrictions to ordering Aptima Chlamydia Products**

Dear Colleagues,

We have been made aware of a supply issue with Aptima Chlamydia Swabs and Urine Kits, supplied to us by PHE. Because of this and to ensure we can continue to supply all practices during this time, we are limiting the ordering of the following products to five units:

- Yellow Unisex Chlamydia Urine Kit
- Orange Female Vaginal Chlamydia Swab Kit
- Purple Male and Female Endocervical Swab Kits

Where orders have already been placed but not dispatched, we will remove any additional volume ordered in line with the maximum order quantity of five.

If you require any further guidance, have any questions or see the limit of five as a concern for your practice please don't hesitate to contact me.

We will update you as soon as we have further information.

Thank you for your continued support.

Kind regards

Gareth
