PREVENT

IS SAFEGUARDING

Prevent is about **safeguarding people and communities** from the **threat** of terrorism.

WHAT IS PREVENT

The aim of **PREVENT** is to stop people becoming terrorists or supporting terrorism.

PREVENT addresses all forms of terrorism.

If you have concerns about an individual the important thing is to do something. If your safeguarding concern is that someone may be vulnerable to radicalisation then follow these 3 steps:

NOTICE

someone showing changes in their behaviour (see 'Spotting the signs').

CHECK

with a colleague/supervisor/Prevent lead. If it is appropriate, ask what the individual means or if they understand what they are saying.

SHARE

with the Prevent Team by completing a Vulnerable To Radicalisation (VTR) form and send it to the MASH (Multi Agency Safeguarding Hub), detailing why you think the subject is vulnerable / susceptible to radicalisation.

The VTR form is available on the Suffolk Local Safeguarding Adult/Children Board websites.

DOES SOMEONE HAVE AN IDEOLOGY OR SET OF BELIEFS?

What is an ideology:

An ideology is a set of extreme beliefs that an individual or group can hold in order to influence the government or to intimidate the public in the purpose of advancing their cause.
This can include:

Islamist Terrorists:

Establishing caliphate, implementing sharia law and strict Wahhabism.

Extreme Right Wing:

Anti-communism, neo-fascism, neo-Nazism, racism, anti-Semitism, xenophobia and opposition to immigration.

Extreme Left Wing:

Animal rights, anti-government, environmental, anarchist, socialism and Marxism.

Others:

These can include lone actors, school shooter threats or those who may have a variety of grievances which may not fit into a particular ideology or belief.

WHAT TO DO

If you are worried or concerned about someone you should call the police. If you don't want to speak to the police it's important you speak to someone about your concerns, there are a number of independent organisations who can help. Remember that protecting vulnerable people from radicalisation is no different to protecting them from other forms of potential harm.
