

Principles of End of Life Care training

One day course, delivered online (CCG).

You are invited to join a one day online training course on End of Life (EOL) care management.

This course is aimed at health and social care staff, including care homes and patient facing primary care staff, with the purpose of providing you with guidance and practical support in what is sometimes a difficult area to approach. It will be delivered and facilitated by the St Elizabeth Hospice team.

There will be two main topics and sessions delivered in two 2.5 hour sessions with regular breaks in between over the course of the day.

Part 1 - My Care Wishes (MCW)

(Also known as Advance Care Planning/Yellow Folder)

Early planning for the future can help avoid confusion and misunderstanding at a later date.

This section aims to improve your confidence in discussing EOL planning with individuals and their families and will provide guidance in the completion of MCW folders. It will explore approaches to help you to overcome challenges that you might face in these discussions.

Part 2 - Difficult conversations and planning for end of life

This session is a combination of presentation, discussion, interactive learning and real life examples of difficult and challenging conversations in complex and often difficult situation.

What will I learn from this course?

- How to talk to an individual about end of life care
- How to discuss and complete a 'My Care Wishes' plan
- Awareness of the benefits of end of life care planning and what it means
- Resources to help start the conversation

(This course will be delivered online via Microsoft Teams please therefore make sure you have access to this and are comfortable using this software).
