

CASE STUDY CRITERIA

We are looking for case studies who fall into the following criteria:

- **Patients** who have been diagnosed with one of the abdominal cancers and/or received treatment. All genders and ethnicities are welcomed

Essential criteria:

- Has had a positive experience with the NHS
- Happy to speak publicly about their experience using the NHS services and share their personal story
- Diagnosed with early stage cancer (one of the abdominal cancers)
- After initial symptoms appeared, they contacted their GP (not A&E)
- Has not experienced any specific delays with treatment or diagnosis during the COVID-19 pandemic

Desirable criteria:

- Was diagnosed / treated with a type of abdominal cancer during the COVID-19 pandemic
- Confident public speaker.
