

Dementia,
depression and
delirium –
a person centred
approach

Knowing Me!TM

NHS

East of England

**Join us for an exclusive
webinar for NHS England & NHS
Improvement on dementia,
depression and delirium.**

**Friday 27 November 12 - 1pm
or
Thursday 3rd December 3 – 4 pm**

L I F E S T O R Y N E T W O R K

Unlocking potential and increasing wellbeing by empowering people who are often overlooked.

A one-hour webinar tailored to NHS professionals and unpaid carers

Delivered through the Life Story Network and tide by expert carers of people living with dementia

Covering the inter-relationship between dementia, delirium and depression and the importance of a person-centred approach

Signposting to other resources that may be helpful to you in your role in providing primary care in the community to support people with these conditions

Appropriate for GP's, district nurses, care home staff, social workers, unpaid carers and more

What will you gain by attending the webinar?

An opportunity to hear and ask questions about the prevalence and inter-relationship between dementia, delirium and depression

Insight into real life situations where acute and long-term conditions have been masked by dementia leading to distressing and even life-threatening delirium

Knowledge to help improve early identification of delirium and depression in people living with dementia

Knowledge to help improve support for carers of people living with dementia

Knowledge about tools that can provide crucial information about an individual living with dementia to help focus support when it is most needed by people who may not know them very well.

The practicalities

Please find links below to register for a place at the webinars. Please note, places are limited and only those who have registered will be provided with joining details.

Friday 27th November, 12.00-1.00pm:
