

# **COVID-19 VACCINE**

**Limited supplies of the Covid-19 vaccine have started to arrive in Suffolk.**

**At present, those surgeries that have received vaccine are only able to immunise patients aged 80 or over.**

**There is not yet enough vaccine for everyone in this age bracket to receive it, so 'at risk' patients are being prioritised.**

**Please DO NOT call the surgery to ask when you will be able to receive your vaccination.**

**Rest assured that we will contact you when we are able to vaccinate you.**
