Dear General Practitioner

### **BOOKING PATIENTS FOR ASZTRA ZENECA ON ACUTE HOSPITAL SITES**

As you may be aware East Suffolk and North Essex NHS Foundation Trust have now received a small supply of the Astra Zeneca vaccine. This supply has been given to each Hospital Hub site.

For those patients that you have identified that need to be vaccinated within an acute setting, the process for booking these patients are as follows:-

Please email [Covid19AZvaccination@esneft.nhs.uk](mailto:Covid19AZvaccination@esneft.nhs.uk) with the following information:-

- Name of Patient
- NHS Number
- Date of Birth
- Dose required : first or second
- Site the patient wishes to be vaccinated on: i.e. Colchester Hospital or Ipswich Hospital
- Reason for needing vaccination at hospital e.g. allergic reaction,

The inbox will be monitored and appointments will be made for your patient.

Please note that this inbox is only to be used for those patients that have been identified as not being able to have the Pfizer vaccination or are required to be monitored in an acute hospital setting at the point of vaccination.

If you have any queries, please do not hesitate to contact me.

Rachael D'Eath  
Senior Implementation Specialist  
(Mass Vaccination Programme)
