

Safe Use of Insulin

**E-learning modules for healthcare staff
FREE during #ISW2021 from 17th to 23rd
May 2021**

-  CDEP's online insulin safety training has been shown to improve insulin safety skills and reduce the risk of insulin errors.
-  Staff can choose between the hospital or community-focussed training depending on where they are working.
-  The training can be completed in as little as 30 minutes.
-  Sign in at any time, from any computer, tablet or smartphone.
-  Complete the training in 'bite-sized chunks'.
-  Completing the training generates a CPD certificate and reflection document for revalidation as well as other exciting CDEP rewards.
