

Ipswich Hospital – General Medicine – Lipids Service

25/09/2019

Introduction	
<p>The CCG has been working with the Consultant Chemical Pathologist at East Suffolk & North Essex Foundation NHS Trust (Ipswich Site) to look at ways to improve the information and support available to primary care for suspected Familial Hypercholesterolemia (FH). NICE Guidelines are (NG71)</p>	
What does this mean for Primary Care?	
<p>Referrals to Ipswich Hospital to the Lipids Clinic for diagnosis and treatment Familial Hypercholesterolemia (FH) should now be made via ALLCAS using the new referral form.</p>	
Start Date	
<p>The new referral form and associated pre-referral guidance will be available on clinical systems and the CCG Website in October 2019</p>
