

Increasing the Take-up of Cervical Screening

- Cervical screening appointments have been available at GP+ since Oct 2020
- Lack of quantitative data at national and local levels
- Inequalities playing out at many levels
- Additional support at practice level

The next steps

- Women who have never had a smear
- Women aged 25-49 – no smear in 4 years
- Women aged 50-64 - no smear in 6 years
- Deprivation
- LD and Mental health
- LGBT
- BAME

HOW WE WILL DO IT
