

Facilitator Programme for the East of England

I work as a long term partner to your organisation, providing face-to-face support tailored to the needs of your organisation and local area.

My support is free of charge. My offer includes:

- Helping you to understand your local cancer data
- Introducing a variety of early diagnosis tools and resources
- Providing training for clinical and non-clinical staff on key topics such as screening programmes and referral guidelines
- Helping you to carry out local audits of the care provided to people with cancer
- Helping you to find solutions to issues within your organisation and area, by facilitating local action planning
- Sharing best practice and innovative solutions trialled by other areas
- Facilitating communication between primary and secondary care
- Influencing and enhancing strategic planning of health services
