

Kooth awareness sessions will help you to see where Kooth can fit into the care your patients receive, how Kooth can bridge the gap, how to get the 'word out' to young people aged 11-25 and see how young people have used Kooth. As part of the session we consider how it can benefit your practice as well as your patients.

The session will provide the following:

- A live tour of Kooth
- An introduction to Kooth and how it works.
- Support on how to get young people signed up to Kooth.
- Explanation of professional support available via Kooth and what young people can expect.
- Explanation of Kooth's other features and support tools for young people.
- An opportunity to ask questions regarding the service.

Please ensure you register for the workshop of choice. If you need to use the Zoom meeting ID, it is the number at the end of the web link. All enquiries to sclark@kooth.com
